

Video Tribute Information

A video tribute is a fitting way to honor your loved one and celebrate a life lived. It is a keepsake memorial that can be shared with family and friends. This complementary service option will be discussed with you during the arrangement conference. Please observe the following guidelines in order for us to maintain our standard of quality.

- Please limit photographs to a maximum of 100 (color or black & white) that are at least 2½” x 3½” but no larger than 8” x 10”.
- Paper photographs will be scanned and returned. We are not able to scan framed photographs to include in a video tribute.
- If there is a preferred order for the photographs, each must be clearly numbered on the back.
- Photographs may be emailed to us as long as they are in a .jpg or .jpeg format. When emailing, please place the name of your loved one in the subject line and shrink the size of the photograph. Do not email more than 4 photographs in a single email. Contact a funeral director for email address and instructions.
- A CD containing the photographs may be used (.jpg or .jpeg format only) **Please note that the CD will be scanned for viruses prior to use.*
- A flash drive containing the photographs may be used (.jpg or .jpeg format only). **Please note that the flash drive will be scanned for viruses prior to use.*
- Copyright photographs may be used only if we have a signed release from the photographer giving Rabenhorst permission to use any photographs taken by them or their staff solely for the purpose of DVD videos made for visitations and funeral services
- The photographs, thumb drive, or CD must be provided to the funeral home location of your choice at least 24 hours prior to the beginning of visitation, but no later than 3PM the day before visitation begins.

* Please note that the funeral home reserves the right to refuse any photograph deemed inappropriate.
